Carbon footprint Henco

Henco Industries has taken further steps in our corporate social responsibility. We take part in a 3 year process. Each year we need to accomplish a list of goals set up by Voka (Flemish chamber of commerce). Those goals are the 17 sustainable development goals from the United Nations. Every sustainable development goal is focused on improving people and planet.

This year Henco will accomplish goals concerning

- Internal en external communication
- Collaboration with our partners
- Safety at the work place for our employees
- Reduce pollution of our business activities

We will do this by

- Communicating in a better way with our stakeholders and internal communication procedures
- Workshops to remind our employees of the dangers
- Use green energy and only select suppliers who focus on the environment as we do.

If, at the end of the 3 years, Henco Industries has accomplished the goals set up by Voka, Henco will get the Unitar-certificate.
